WORK EXPERIENCE

Software Developer | Ericsson Nikola Tesla

September 2022 - current | Split, Croatia

- Worked with a team of IT professionals in an agile team to develop proprietary, secure and fast telecommunication network software
- Acted as a Security Master for a cross-functional team resolving any product related vulnerabilities
- Addressed regular production improvements in existing Java microservices using Kanban to prioritize requirements and utilizing CI/CD pipelines
- Designed and coded unit tests for parts of software assuring best practices and code coverage using the Mockito framework in Java

Software Developer Intern | Ericsson Nikola Tesla

April 2022 - August 2022 | Split, Croatia

- Attended a Summer Bootcamp at the Ericsson Nikola Tesla company
- Learned about Linux systems, the microservice architecture and cloud based systems at the theoretical part of the Bootcamp
- Built a chat application consisting of three microservices using above mentioned technologies and the Java programming language in the practical part of the Bootcamp
